UROXSYS HAND SANITISER

Uroxsys Hand Sanitiser 5L is based on a current World Health Organisation recommended formulation. It is an alcohol based clear hand sanitizing solution which will kill most common bacteria and viruses including Covid-19 when used as directed.

PRODUCT FEATURES

- Contains 80% ethanol
- MPI Approved C54 during Alert level 4

USES:

Uroxsys Hand Sanitiser is formulated to evaporate and leave hands dry and sanitised.

DIRECTIONS FOR USE:

Apply a palmful on to dry hands, cover all surfaces of the hands. Rub hands together until hands are dry. Do not rinse. Keep away from fire or flame. For external use only.

For C54 use:

The compound must be supplied from a fixed, metered dispenser located a sufficient distance from the processing line to prevent product contamination.

Before the sanitiser is applied, hands must be clean. This includes washing the hands where necessary.

After use, the hands need not be rinsed but must be dry before the operator returns to the processing line.

SAFETY INFORMATION: refer to safety data sheet

This information is, to the best of our knowledge, true and accurate, but any recommendations or suggestions which may be made are without guarantee, since the conditions of use are beyond our control. Furthermore, nothing contained herein shall be construed as a recommendation to use any product in conflict with existing patents covering any material or its use.
